

Hack In The North is the collaboration of programmers, designers and inventors to **code, design and build** innovative solution that tackle real word problems.

It provides a venue for **self-expression** and **creativity** through technology.

It doesn't matter if someone is still making their first app or their 100th one. There are a lot of things to learn.

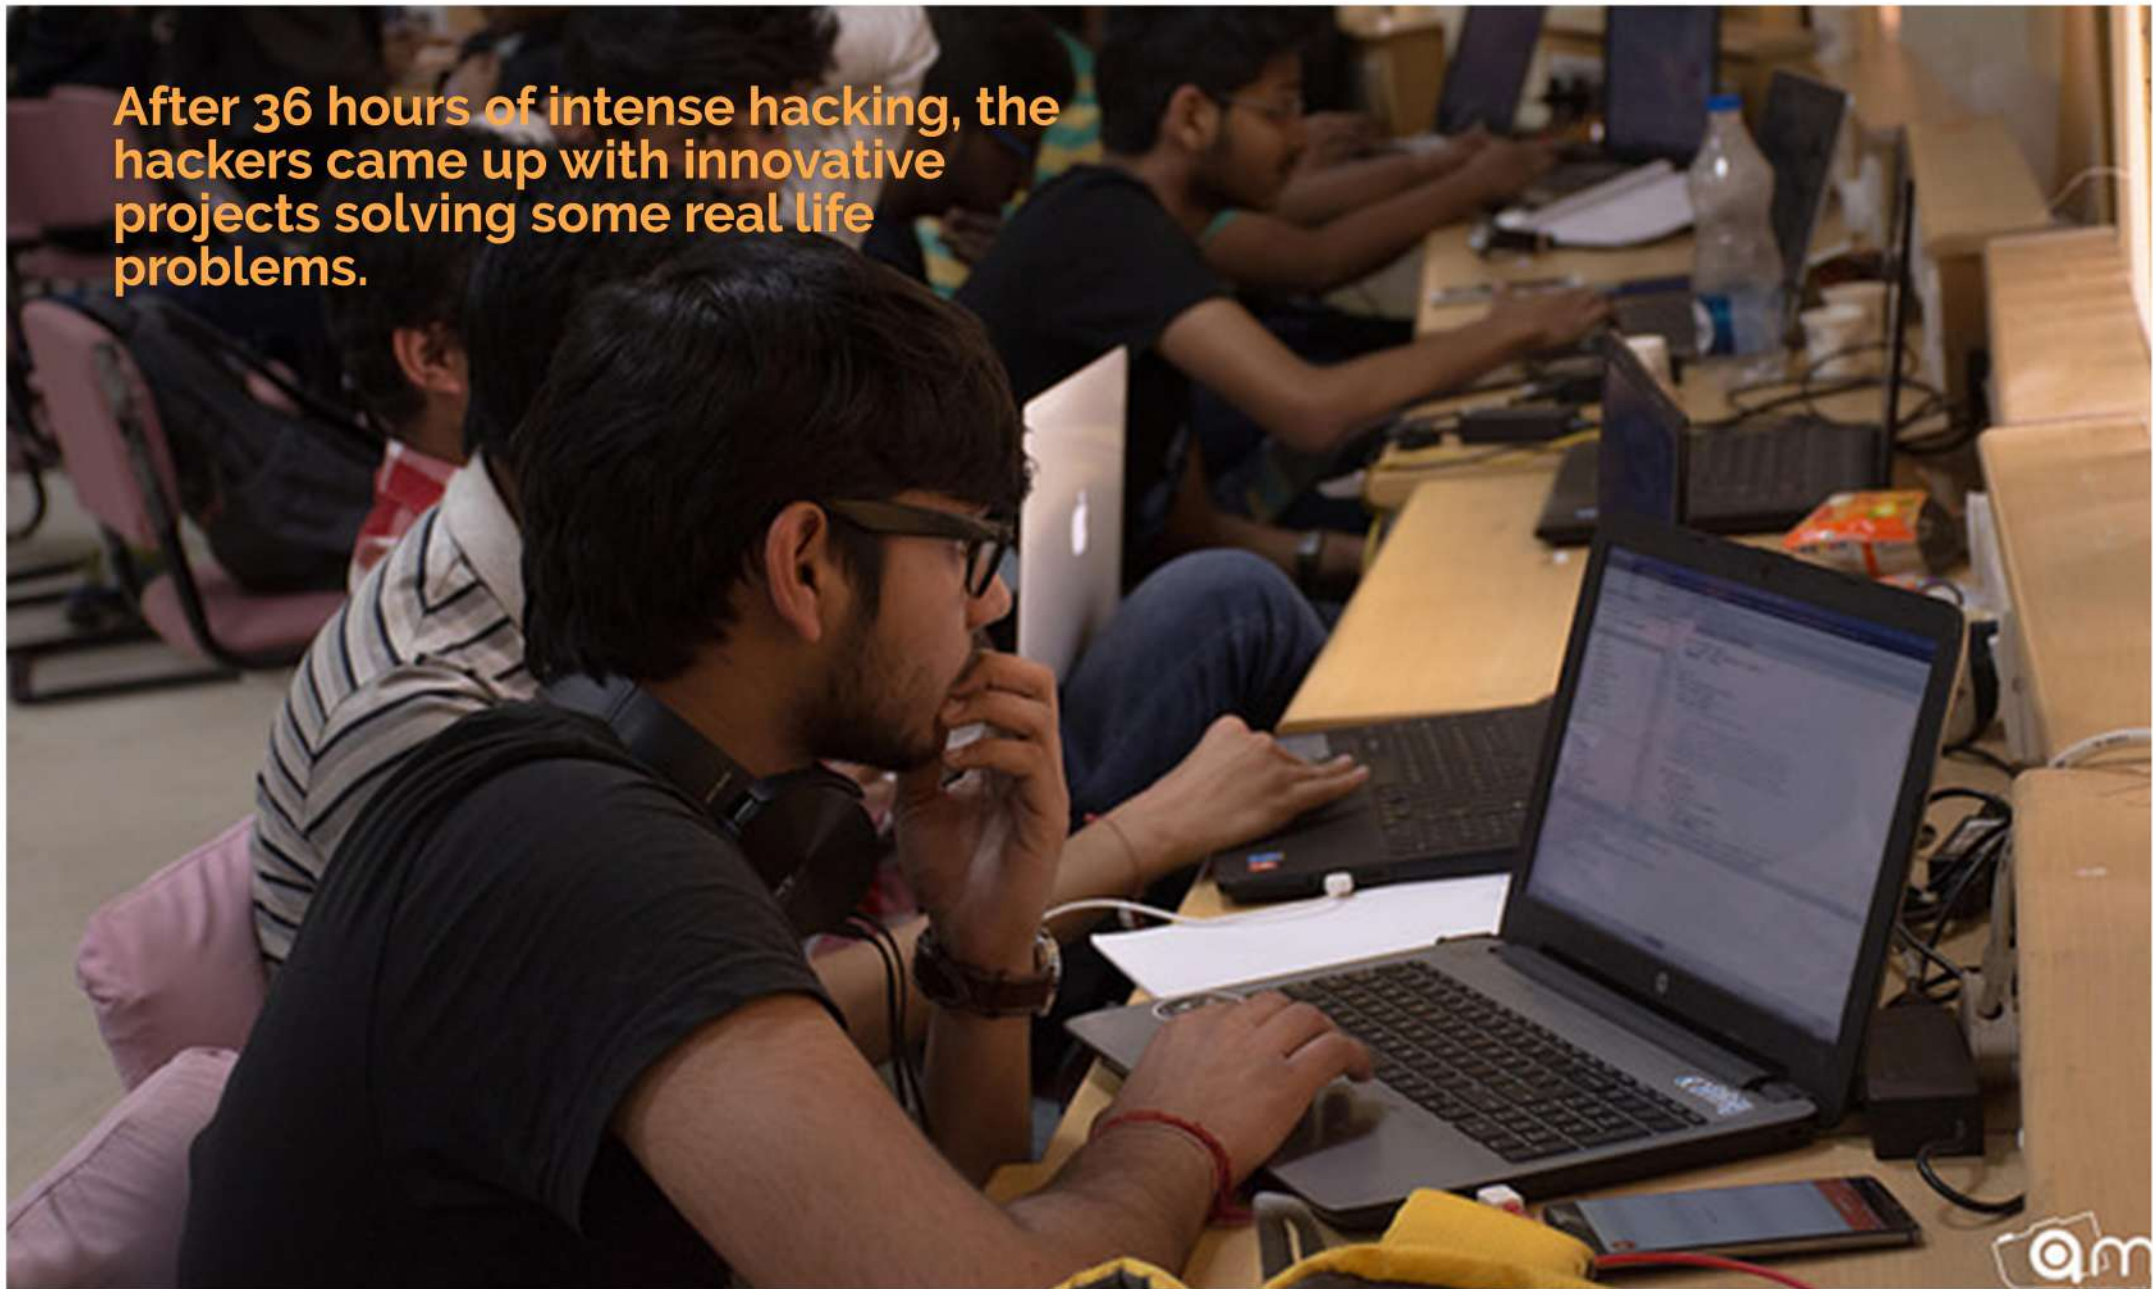

The only constraint is time.

Hack In The North 3.0 was successfully held from 16th to 18th March 2018 at **Indian Institute of Information Technology, Allahabad**. It saw amazing participation of **200+ participants** from across the country.

After 36 hours of intense hacking, the hackers came up with innovative projects solving some real life problems.

Projects from Hack In The North 3.0 :
<https://www.hackinthenorth.com/HINT-v3.0-projects/>

200+ Hackers hosted

58 Github repositories
with over **1000 commits**

600+ pizzas and
180+ Litres of cold drinks
consumed

Over **100000+** lines of code
in **10+ Languages**

Commitment

Over the years, we have strived to make sure that **women** get a chance to showcase their experience with all fairness - **Hack In The North 2.0** had a direct entry to any and all-girls teams and individual entries.

We took it a step further in **Hack In The North 3.0** by
+ **Reserving 20%** of the seats for female participants
+ Introducing **separate prizes** for the best women's team

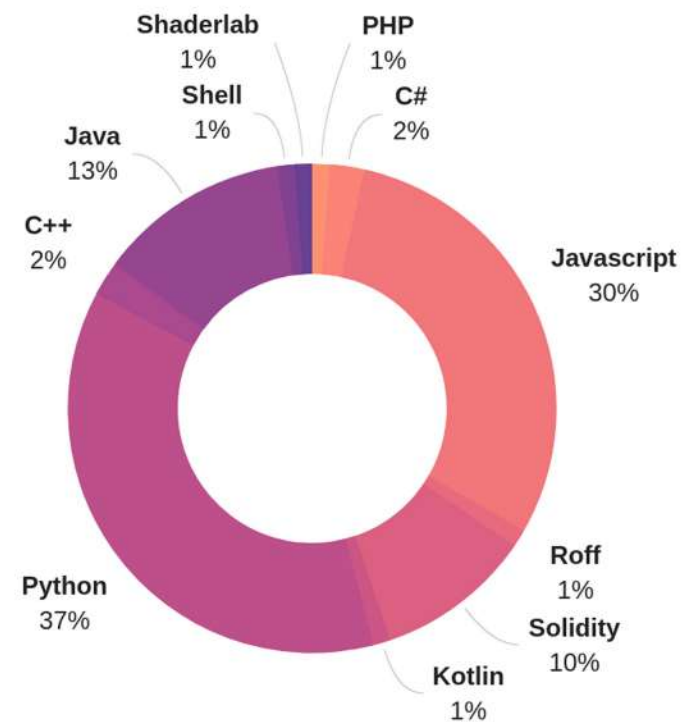

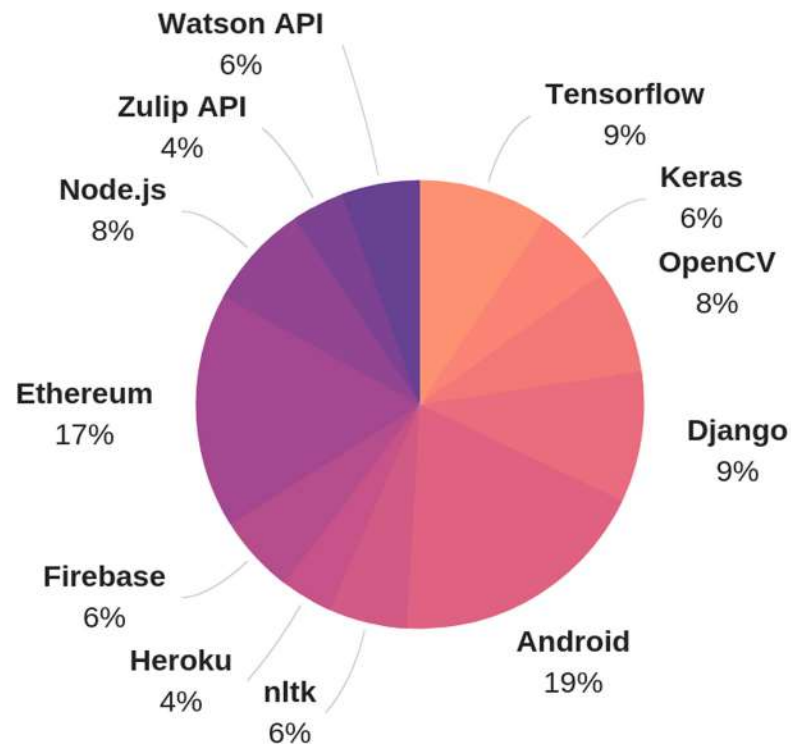

Now it's time for
Hack In The North 4.0
We need your help to make it happen

Why Hack In The North?

Our participants come from diverse technical backgrounds, and possess skills that range from blockchain development to data science. Many of our participants are alumni of the prestigious Google Summer of Code program.

Our event is held much before the regular placement cycles start in all premier colleges, which gives your company first-mover advantage in recruiting the top talent.
